## GOVERNMENT ANTAGONIST AND HUGUENOT

So, the usurper sent an ambassador and nothing else to France for the "million man march" against Isalm. I've had it! So now I accuse Obama and his entire Cabinet and the Democrat party of treason, the usurpation of our laws, sabotage of our Constitutional government and complacency in the murders of U.S. citizens, incompetence while in office of the executive position of President, Vice-President, as well as aiding and abetting our enemies.

To you, Jim Inhofe, and you, Markwayne Mullins—I charge you with the responsibility of your office, to make the charges and carry through on your oath of office! Point your finger and do it! Scream to the roof tops, "Treason! Treason! Treason!"

Enough of the political correctness. All that is, is another term for cowardice in office. In case you haven't noticed, we are at war, ladies! If you call yourself a Christian, you are the target of this war. What's a -matter, no balls? You think the Creator is going to save us all?

A man in his house with flood waters surrounding it and rising says, "Oh, Lord, please help me!" A knock on the door and there stands two police officers, "Sir, come with us, the water is rising!" He says, "I'm staying here. The Lord will save me." Later the water is now up to the second floor. A boat comes to help, they say, "Get in, the water is rising." He says, "The Lord will save me." Soon, the water is up to the roof. A helicopter hovers above and the

pilot says to climb on, the water is rising. Again, he says, "No... I'm staying here, the Lord will save me."

Finally, he and his house are washed away in the flood. Now standing before the Creator, he says, "Lord, why didn't you help me?" The Lord replies, "What do you mean? I sent two police, a boat and a helicopter!!"

The moral is, if you do nothing to save yourself, then you get what you deserve. In other words, if you don't stand against this usurper, then you will reap the whirlwind!!!

Time to ride. This old Reb now finds himself once more a civilian, but with nothing left to go home to! I guess I'll go west! Got a job setting posts and stringing telegraph wire. They put me in charge of the crew See you on the bridge!

P.S. Each and every day, since I picked up the pen I have put myself out in front. It's only a matter of time until Der Fuhrer turns his attention towards men like myself. That is, if the Muslim murderers don't come first! Where do you stand? In the words of a famous Highwayman, "Stand and deliver!"

P.S.P.S. What is the price for freedom? Are you willing to give up the lives of your family and

friends so you can live as a coward as long as no one hurts you? Convert and give penitence later? Sorry, it doesn't work that way.

So, get ready to defend yourselves!
