## GOVERNMENT ANTAGONIST AND HUGENOT

Government, government everywhere! Government, government and none to spare! Government, government and all our freedoms did shrink! Government, government and no freedoms from which to drink! Der Fuhrer has announced that if Congress does not do as he wishes about gun control, he says he has other ways of getting what he wants!

“Wow!” Does that sound like a tyrannical dictator or what? “I” have other ways to do what “I want!” Constitution? What constitution, “Lucy?!” Obama, remember, has the magical golden pen and with the collaboration of people like Harry Reid, he feels no fear and is willing to sign edict after edict and call it the law of the land, because he is the Great One, sent to save us from ourselves. Any excuse to get our guns and snatch complete autonomy and control.

You see, first a communist must infiltrate, divide, destroy the economy, disarm, isolate, then deal with remaining resistance, re-educate and erase past history and forbid any reference to it! That is how it is done. Trotsky and Lennon did it! Castro did it! Hitler did it! All the greatest evil men in history did it. So, lets compare. First, a disbarred nobody and his disbarred wife come out of nowhere, get elected to the Senate and one year later runs for President and wins. He starts by replacing all the heads of office with others like him. Tax dodgers and other traitors. They spend us off into never-never-land, they keep us racially divided, weakened our military and isolated us from our friends and allies. Now they once again are attacking our Second Amendment in order to disarm the citizens, so as the army and police—only—have all the guns... and “viola,” a police state with a permanent puppet dictator is born. I’m sure that spineless quisling Tom Coburn will vote with his new Lord and Master, after all, he might be able to catch some of the crumbs that fall from Obama’s dinner table, like the cowardly dog he is!

You know, if you haven't ever read Marx, you should. “Know thy enemy!” What this usurper is doing is text book Manifesto stuff. I also read Sun Tzu—everyone should read both; they are very enlightening. Put the two together and most opposition can be overcome if well planned! Ask yourself why does he need Colin Powell? When you take over, you need a general you can trust, to replace the others with who are not agreeable. Like Hitler’s favorite, Jodl (“Yodel”) - who, by the way, was hanged later at Nuremberg.

So, what are you going to do? Hide your guns? Hide your high capacity magazines? Or, just hide yourself? All gun legislation is illegal! The right to bear arms “shall not be infringed upon!” Period. No if’s, and’s, or but’s about it. How about dealing with the source? Hollywood, video slaughter games, usurping liberal judges and greedy, conniving politicians! With their unchecked irresponsibility spewing forth like the vomit it really is. Guns don’t kill people. Imbeciles with tiny brains kill people. The rest is military and police doing as prescribed by so-called civilized society. You see, a gun is nothing but a manual machine... just like your car, which kills and maims more humans than any other machine built by human kind, yet we don’t do a very good job keeping them out of the hands of morons, either. The key word was “moron,” the person or persons usually connected with both traffic and hand gun deaths in this country. The impaired brain with the finger on the wheel or the trigger. This is where we must seek to deal with our problem. The problem is not with sane people, but with the “idiot-morons” that watch too much TV and play “blow-your-brains-out” videos all day, instead of working for a living or seeking an education... and being useful to themselves and us!

The professional welfare slugs will do as they do if not put in check by breeding more welfare slugs. Gangbangers, car thieves, murderers! Now, deal with this and you take the wind out of Obama’s sail. Do nothing, as usual, and it will get worse. After all... who is one of the biggest violators of our nation’s gun laws? Mr. Obama-pie himself, by putting assault weapons into the hands of Mexican drug lords who used them on American citizens. Talk about criminal activity on the highest order! It’s time to stop them—now or never. Tell your Representative or Senator we, here in Oklahoma, still know how to use a bucket of tar and a sack of chicken feathers. Well, time for the Reb to ride. One of the pickets just shot the general by mistake.

See you on the bridge!

P.S. Wouldn’t you know it, Federal government is reneging on seven million in grants to the city of Tulsa. Sounds funny to me! Let’s see: it cost the American people seven million to send the Obama’s to Hawaii for Christmas! Smells fishy, don’t it?

P.S.P.S. Inauguration day. Think I’m going to strap on my guns and go outside and fire a few rounds... practicing my 2nd Amendment rights!
