

The Rebel Speaks

GOVERNMENT ANTAGONIST AND HUGENOT

Well, we're going high tech today. It seems that drones are above, going on about our business not knowing that we may be the target, the reason? Anything the regime wants to invent. Drones! Death and surveillance from above! Everyone should take a trip to Tulsa Glue Dobbers (<http://www.tulsagluedobbers.com/>). The amazing things they can do with the models are mind boggling. Basic drone technology! I have personally seen them. Just think, Obama gets our guns and there he sits with his finger on the trigger of the most dangerous creation we have yet achieved. Just think, Obama-Pie in a little room in the basement at the White House, his hand on a joystick on a computer, the other hand in a box of popcorn as he says, "I've got you sucker!" Blam! Blam! "Ha! Ha! Ha! That's a 3 Billion you owe me 'Bite-Me!' Hey, Feinstein, you want to take a shot? Buy in is only five hundred million of the tax payers' money! Joe here can't seem to hit a barn door!!! Ha! Ha! Ha!"

You know, several months ago the Chinese were spouting off about their new aircraft carrier they just built. I've got news for them—they should have invested in model airplanes. The day of the drone is here; they make such a ship totally obsolete!

Can you imagine the Chinese trying to fend off wave after wave of unmanned death machines, each with the destructive power of any F-18 or YF-22 (only if it goes down, we lose only the machine and not our young men and women).

I'll bet you didn't know we are building drones in Oklahoma. "Yep," here in our science labs at our universities—all with the intention to do good for our fellow man. Some of these toys aren't any bigger than a fly! Some of these new machines are what they call autonomous, or self-regulating. They can navigate through halls, up steps, through crowded spaces, can fly in formations by measuring air density in it's immediate vicinity and adjusting air-speed and altitude to accomplish complete coordination with it's fellow robots.

You know Mr. Obama-Pie has figured this out. I'm starting to feel a little like the field mouse with the hawk soaring high above. Silent and watchful of his target a thousand feet below. Unknowing of the danger from writing his newest racist speech!

Now I will tell you the answer to my question. It is this. The Party seeks power entirely for its own sake. We are not interested in the good of others; we are interested solely in power, pure power. What pure power means you will understand presently. We are different from the oligarchies of the past in that we know what we are doing. All the others, even those who resembled ourselves, were cowards and hypocrites. The German Nazis and the Russian Communists came very close to us in their methods, but they never had the courage to recognize their own motives. They pretended, perhaps they even believed, that they had seized power unwillingly and for a limited time, and that just around the corner there lay a paradise where human beings would be free and equal. We are not like that. We know what no one ever seizes power with the intention of relinquishing it. Power is not a means; it is an end. One does not establish a dictatorship in order to safeguard a revolution; one makes the revolution in order to establish the dictatorship. The object of persecution is persecution. The object of torture is torture. The object of power is power. Now you begin to understand me."

— [George Orwell's book, "1984"](#)

Well, time to ride. This old Reb has to stop a drunken politician from smoking around the ammunition depot! We're going to give him a hammer and have him check for duds!!

See you on the bridge!

P.S. I've talked about this before, but I thought it was worth bringing back up, since it is now a top news item at a time when new attempts are now in motion to get control of our guns!

P.S.P.S. I heard that someone flew the stars and bars on top of the Supreme Court building in Mississippi. I'll bet Jesse Jacksonnnnn is burning up a pen
