## GOVERNMENT ANTAGONIST AND HUGUENOT

Spy craft after spy craft, so far the number is a lot more than we're told.. Where is a photon torpedo when you need one? Do you think Captain Kirk would have waited that long? Our country should be on high alert from now on, for God only knows how long.

Taiwan is being beefed up. You know Japan is as well; we have three bases there. Now we are finding out there have been 250 others Biden let slip in just the last two years... and he just now says shoot them down! Biden is totally in bed with the Chinese Communists, to the tune of millions and millions, along with his son, Hunter.

Just in case you don't know, 36,000 feet and above is military air space. All pilots know this.. Our air force is supposed to intercept anything that enters that space and challenge it!

Now Bite-me goes off to Ukraine to throw more of our equipment and money into the fire he started.

Meanwhile, back at the ranch, our little buddy in North Korea is throwing a temper tantrum and shooting rockets from his little sling shot all over the place. At the same time, the Chinese are helping Putin with money and equipment. Anyone ever heard of a guy by the name of Nostradamus? He made a prediction several hundred years ago... predicting that the eagle would fight the bear and the dragon. Well, good "Ole Joe" has us sitting in the middle, between the two. I wonder what Christmas will be like this year? A missile or tank under ever Christmas tree?

Time for this old Reb to ride!

"Corporal, take our riders down the road a mile, to that dead tree. That's the starting place, and they will finish right here! Mr. Harris, go with them!"

"Aye, Captain! This is going to be bloody good!"

"Let fly when the pistol goes off. Rhea, would you do the honors?"

"Thank you, husband!"

"They are about ready!"

Boom!!!

"Look at them! What a sight!"

"You know what is a sight?"

"What, Rhea?"

"That Comanche coming up the rear."

"What?"

"Now he is catching up! The Double-S horse and the Colby boy are in the lead!"

"Not for long, Cap! That Comanche has caught up and is now in the lead, waving his coup stick and hollering all the way!"

"Here he comes... and there he goes!"

"I wonder if he knows he just won three hundred dollars?"

"The Colby boy and the Double-S horse came in neck and neck... I guess we'll split it with them."

"Never saw anything like that, Cap!"

"No, wife! And will never see again! That brave will tell that story over and over around the camp fire... So will Mr. Harris!"

See you on the bridge!

P.S. Ohio is screwed. People are getting sick as well in Pennsylvania. Polluted water, animal and fish kills.. And where is "good Ole Joe?" In Europe, antagonizing the Ruskies! Every day it gets worse, along with our inflation. Joe's answer is to throw more unsupported currency at the fire!

P.S.P.S. Ohio's disaster will affect the entire eastern U.S. with the 2-1/2 MILLION gallons of vinyl chloride was released into the air, water and soil. It's water soluble. Acid rain. It's not going to stay in Ohio; it's affecting everything from Canada and New York to Kentucky and beyond. It's one of the most toxic substances in the world. It takes months to degrade and causes destructive cancer and, obviously, death. This is going to get bad.
