## GOVERNMENT ANTAGONIST AND HUGENOT

I have had enough! How about you? Enough! Enough! Enough! Where to begin? I'll begin with current events.

Just last week there was a running gun battle in the streets of Tulsa, Oklahoma. Gee, who would have thought... gangsters, thieves and murderers everywhere and none to spare! Bullets every direction, innocents with property stolen or destroyed and one young, productive man dead. We have to ask ourselves, "Who is responsible?" I personally suggest to you a deep thought that I ask each one of you - red, yellow, black, white, men and women of every race, denomination or creed. We all seek the same outcome: safety of our lives and property and to live in peace.

The root of the problem, in my perspective, is based in our

judicial system... judges and lawyers who use our fine system as their own private banking system. A system by which to intimidate and silence any who would try to stop their usurpation of all our governmental offices! Many judges now feel they are all powerful and with their graces, their associates - of whom all members are of the same "Bar Association" - are allowed to ravage the finances and property of all who are brought into their courts! Yet, because of their impunity to our objections, set loose the worst of the worst onto our streets to do whatever they wish, with no fear of the "representatives of the law." Some of these criminals have arrest records that go back for years! Too often they are let out on bail when they are already awaiting arraignment on previous charges. Just last year one of these criminals told a local reporter that he was glad the police presence was so small and ineffective... and that since he was now out again he would continue to pursue his favorite part/full time job: stealing your cars and property! While this costs all citizens, who benefits the most? Judges and lawyers who pocket millions of taxpayer dollars every year from this continual merry-go-round. Then they run for political offices in order to pass laws and ordinances against free citizens for the purpose of enriching themselves!

How many of these so called protectors of the law do you think is worth more per hour than the rest of us? They claim it is because they went to school for 4-6 years for a law degree...

Patriotism means  
to stand by  
the country.  
It does not mean  
to stand by the  
president or  
any other  
public official  
~  
Theodore Roosevelt

and that makes them worthy of three hundred dollars an hour? Excuse Me, but I personally don't know any 8 year union electrician that can even come close to that, or any A&P mechanic or police officer... or any other trade except for doctors. There is no regulatory oversight committee to watch what they do or how much they may rape our wallets and bank accounts! This has got to STOP! We must reign in and control these ambulance chasers and (I say) "con-men" and revamp our judicial system. We must stop them from setting the criminals on us by letting them loose on us! Any criminal that has served time at least twice and is looking at a third, fourth or fifth... or sixth felony arrest/incarceration for violence and thievery should be removed from society permanently. Any judge or attorney who

helps set that kind of person free to reign terror upon us should serve time themselves - be disbarred as well, if the person they set loose on society should commit murder while on our streets - are they not accessories to the crime? After all, they would charge us as accessories with no regret for having done so, were we to help criminals run loose to do their worst.

With law enforcement as their own private army, which is also immune to civilian oversight - they all investigate themselves! The first step in regaining control of our lives and freedoms is to create civilian courts to oversee the judicial and law enforcement for their wrong-doings and hold trials in a regulated format outside of their self-managed system.

If we do this, we could gain control over frivolous law suits. There would be no need for the outrageous numbers of ambulance chasing lawyers! Pick up a Tulsa phone book (or any phone book from a decent sized city) and notice a quarter of an inch of yellow pages is devoted to hundreds of "Liars." Did I say "Liars?" I meant Lawyers - or "Conmen," oops, I meant to say attorneys. And, finally, why do we keep electing them to political office?

See you on the bridge!

"Rebels Ride" when freedom cries out for help from drowning! From a long line of rebels... we stood down the British with our first rebel flag—the Stars and Stripes!
