## GOVERNMENT ANTAGONIST AND HUGUENOT

So, Bite-me at the G-7 conference in Japan. What did he do, wet his pants like he did for the Pope in Rome? I wonder if they have sushi flavored ice cream in Japan? Well, just as I thought, nothing comes from this puffed up meeting. Joe-Joe says, "So sorry, I have to go... the American debt is up to bat, but what the hell." He could give a shiite, because he is a fool's fool and can't be bothered with the business of the American people! He's too busy stealing from us and leaving us behind!

As far as making a deal in negotiations with this fool, it's fruitless! He hasn't the where-with-all to change his own depends, much less lead a country (if the real Joe Biden is even alive anymore, see our 6/1/2023 edition!).

Oh, yea, he is leading the country... straight into hell! After all, the national debt is almost 31 TRILLION dollars and he will want more. Remember, Obama-pie took us to 22 trillion.

Just how far is this fool and his forty thieves going to take us? I'll answer that for you—just as far as he can stretch it before it breaks and who knows, maybe it will break. Bite-me and his handlers are threatening riots if they don't get what they want, like fit throwing brats who loot and destroy!

So, McCarthy makes a bad deal for every American. This deal will spend us into never land. Like this old Reb has said before, "We the People" no longer have a Constitutional government. Every Senator, every Representative who goes along with this usurping dictator is now totally guilty of treason in the highest order!

Let there be no mistake; "We the People" have been sold to the highest bidder... the Chinese!

Time for this old Reb to ride!

"How's that boy coming with his shooting, Rhea?"

"Pretty good. I think it's enough he knows how it works... We

don't want to create any vengeful gun slingers!"

"No, but he is going with us in the morning. We have a line on those rustlers. It seems to be a pretty big operation, controlled by someone over in Dallas. Jimmy says he is going to shoot the man who shot his father. Says he knows where to find him. We have to keep him on the ranch till we can get a line on who the top dog is."

"Well, Cap, I don't think that boy will wait long."

"I think you're right, wife! I think you're right!"

See you on the bridge!

P.S. While the Chinese play Russian roulette with our Navy, Uncle Joe (or whoever he is) does nothing because he has been bought, like the execs of some of our big car manufacturers!

Enough! Enough!! Enough!!!

Just for the hell of it, think bout this... the Chinese haven't been in a sea battle since the 1500's!

P.S.P.S. In November 2020, we were energy independent for the first time since 1959, which was accomplished by President Dwight D Eisenhower. That means, of course that TEN presidents, from John F. Kennedy all the way to Obama, over a 60 year time span, prevented energy independence. Even the mighty Ronald Reagan did not make us energy independent. Donald Trump was the FIRST president since Eisenhower to set us free. Let that sink in, because we now know that all the oil shortages were a bold faced lie that was controlled by those in power for 60 years. Biden (or whoever he is) has literally shut down America's energy production by banning oil and gas drilling on federal land. Now he's going after the Navajo in New Mexico with a new ban on their land... and that means that their tribe will lose a substantial amount of income. How will Native Americans react? Now, that will be interesting.

We should all be fighting mad, furious, in fact, that for 60 years we've been under the thumb. Are you mad enough yet?
