

The Rebel Speaks

GOVERNMENT ANTAGONIST AND HUGUENOT

The Supreme Court finally steps up and upholds the Second Amendment against the commies of New York and other commie cities who imposed illegal laws and ordinances. And to top it all off, the court overturned Roe vs Wade. Yippee!

Get ready for more and more riots by the lefties. None of them will ever be investigated by their primate leaders! And there's old Joe Bite-me setting it all up with his call to arms speech, by telling his minions what a travesty it is (which really means "get your molotov cocktails and bricks. It's time to destroy again").

So, now, here we go... again. It's already started,, of course, in all the blue states. Why? Because the minions are safe from

prosecution there. It's time to arrest some of these governors and mayors and throw away the keys. After all, their favorite president of all, Lincoln, did it, and he did it for the duration of the War of Secession. He is the democraps most revered. He tried to get elected as the democrap he really was and could not get elected, so he joined the new Republican party and viola. A backshooting bastard was born! Then he plunged the entire nation into a bloodbath!!! So, who else would treasonous lying, murderous bastards look up to? Lincoln, the bloodiest, murdering monster our country has yet too know, next to Grant! Don't believe me? Ask any ancestor of any plains Indian tribe! Like I've said before, where is John Wilks Booth when you really need him? And how we need him!

Joe abandoned everyone in Afghanistan, then started a bloodbath in the Ukraine. The entire government in D.C. is totally corrupt and the only chance we have is to fire them all and start all over again! It is probably too late!

Stand your ground!

Time for this old Reb to ride!

"It's time we build a few places to hold out, in case of attack, Corporal! We should stock them with weapons, water, food and

ammunition... just in case."

"I agree, Captain!"

See you on the bridge!

P.S. A world class hacker would do just as well by taking all of their money and sending Joe Bite-me, Nancy PP, Chuckie Schumeroid, Soros and Hillary-Dillary and Willie-Billie Clinton and the Obummers into abject poverty. Take it all!

P.S.P.S. Knowledge of historical truth is a vital weapon in today's political climate. Lincoln is a prime example.

The South seceded in a way that was accepted as Constitutionally legal. They became the Confederacy. They had their own Constitution, heavily based on states rights. They had their own banking and monetary system. In fact, the Confederacy was a free and independently functioning country for TWO YEARS before the North invaded.

Lincoln did, in fact, arrest anyone who disagreed with his attack on a free and independent country. He locked up news people, governors, congressmen... anyone who spoke against what he was doing. Lincoln, in fact, cancelled habeas corpus all together. That's right, folks. The January 6th prisoners were not the first ones to get locked up with no rights and no legal recourse.

By the way, before the South seceded, the Yankies went to the Southern cities and burned, looted, destroyed, murdered and stole. Gee, doesn't that sound familiar?

Lincoln sent his butcher generals... Sheridan, Sherman, Grant, McClellan, Crook, Cook, Custer and more to destroy the South, and murder, loot and burn. And when they were done with the South, they all went west and did the same thing to the Native American Indians. And Grant became president after murdering.

This wasn't something they invented. They learned how from the British, who had done exactly that to the Scottish and Irish and god knows who else. Buckle up, patriots.
