

The Rebel Speaks

GOVERNMENT ANTAGONIST AND HUGUENOT

Great Caesar's ghost! Loretta Lynch has a private meeting with Willie Billie and voilà, Hillary is off the hook! Al Capone couldn't have engineered it any better. I wonder, what did they promise Loretta? "A?" Maybe estates in mid-America with twenty four hour protection by the U.N. and household slaves. To draw her bath (all of which used to be middle class Americans)?

I wonder what the cost is to buy off all the witnesses and purchase an entire election? It must be astronomical! Probably enough to bail out the Greeks and then some. Just think, if Charlie Manson had that kind of money... do

you suppose the Democraps would vote for him? After all, he never actually participated in the murders directly. Sounds just like Hillary. She never actually did the killings, but empowered our enemies to do so! Treason after treason after treason and no one does a thing, except put out their hand and look the other way.

There are people sitting in prison cells all over America who committed the same crimes. The only difference between them and Hillary-Dillary –Doc is that they are not running for the Presidency. The bribery and collusion is slapping us in the face. The criminality of it all is magnificently blatant! My face is red! How about yours?

This has to be the most expensive election that has ever been bought and sold.

Shame on James Lankford... standing there saying there needs to be more civility. James, you need to stand up

and put this woman in jail and do what you swore when you took the oath of office. That is to protect the Constitution and our laws, even if it means your life.

Time to stand up to the bully! Time to stand and fight! No more weaklings in office retreating and cowering in the corner!

Time for this Reb to ride. Outrunning a wild longhorn steer is not funny, especially when you hook your spurs together and take a head first dive into a dry but very rocky creek bed. Then finding yourself face to face with

what could have been the same snake that spooked your horse. Shot the snake, lost the steer. Don't you love walking home on a cloudless hotter than Hades day?

Fortunately the boys had found my horse and heard me shoot the snake, so I didn't have to walk too

far.

See you on the bridge!

P.S. Even if the FBI is guilty in all this, John Kerry, Obama, the entire legal branch... all these people are in it up to their necks with Hillary. I think it is almost time for the American people to have a trial by rope and clean it up ourselves!

P.S.P.S. Yellowstone Park is closed down due to the heating up of what is known as the Yellowstone caldera. It seems that it melted the road there in the park. Big bang theory, "A?"

**"When once a republic is corrupted, there is no possibility of remedying any of the growing evils but by removing the corruption and restoring its lost principles; every other correction is either useless or a new evil."
