

The Rebel Speaks

GOVERNMENT ANTAGONIST AND HUGUENOT

ISIS is now educating young boys in "How to behead and murder 101" by making them watch films of death in order to desensitize them to all the murder this cult is raining down on the Middle East, and to enslave their minds into that ignorant martyr mind set. Remember

Vietnam? Remember the Khmer Rouge? How about the Killing fields? This is what the peaceful religion of Islam wants for each and every American man, woman and child! This kind of thing is not uncommon in Africa. The giving of machine guns to uneducated children and encouraged to kill! The S.S. or "Schutzstaffel" gave pistols to Hitler youth and let them loose in Jewish neighborhoods with no consequences whatsoever as to the murders they committed or the damage they caused to property and freedom. And now, it begins again. The world is on fire. It seems that we lucked out on nailing one of ISIS leaders. You know Rudolf Hess tried to take the limelight from his dear old buddy Adolf... but, in the end, the elimination of only one of the baddest of the bad had no real effect, other than old Ruddy spent thirty some odd years in Spandau prison, where he eventually died. The point being, you have to kill the whole beastie!

As a hunter and father of two veterans, I can tell you that you never kill and eat half a duck. I mean, what are you going to do with the other half? Watch as it flounders and falls down,

because the other leg is missing? We are in for a long and dangerous time with these desert rats. War after war, you know, until we get Obama's hands completely off the wheel and out of the car "D.C."

Khmer Rouge

The Communist Khmer Rouge took control of Cambodia in 1975, staying in power until January of 1979. During that time they established policies with total disregard for human life with massacres on a massive scale. Cambodia became a giant detention center—a graveyard for an estimated 1.7 to 2.5 million people out of a population of about 8 million (1/4 of the country's inhabitants)

We will still have to fight him for our freedom back. I'm hoping that our newly elected House and Senate majority will finally step into the batter's box and slug that usurper's pitch out of the park. And we will see about our ISIS problem. First, close the damn border!

Time for the Reb to go. Hood has ordered one last try to break out.

See you on the bridge!

P.S. Do you suppose that the Muslim children in the "good ol' U.S. of A. could be getting the same conditioning? Getting them ready to do their worst? Gee, you don't suppose they can manipulate a moron in Moore, Oklahoma to do the unspeakable... then they can do it behind our backs in their pagan mosques. Islam means to kill us all, unless we defend ourselves!!!

P.S.P.S. Yet another American beheaded, even after he converted. You see, they only want to kill us. Three more Americans killed in Israel. It will only end

when we fight back!!!

Gee, does this sound like my P.S.... What else is there to say???
