## GOVERNMENT ANTAGONIST AND HUGUENOT

Riots in the streets. Chaos, anarchy all out of the Communist Manifesto play book. Did you see the demonstrator holding the sign: "Communist Revolution?"

I mean, what's this all about anyway, Alfi? The privilege to rob or to steal or even to kill, for the sake of one young criminal whose time in crime was up. And, then trying to put the blame on whites with the help of such master bigots as Al Sharpton, who is making a tour of the main media news programs.

By the way, did you see "step-dad" (who, it turns out, isn't even step-dad), with his pants half way to his knees as he turned and said, "burn this mother down" while making gang sign down around his crotch. I can see what a fine example to Michael Brown he was.

They want to blame us, that is whites, for his robbing and assaulting people, then assaulting a cop. Well, I don't know about you, but this Reb would stop dead in his tracks if a cop levelled off on me. Instead, this kid charged that cop and got what he was asking for. And you can put the blame squarely on his upbringing and culture.

The same with Travon Martin. These are prime examples of what happens when you make nothing but bad choices in life

and revere a culture which is negative in nature. If it had been a black cop that shot him, would that have made a difference in this kid's life, or the following aftermath?

What next? With Obama's help are we now going to start re-segregating? Obama, in his speech, said to continue and demonstrate in order to bring justices to the surface. In other words, like always, does nothing and encourages the antagonizers to continue tearing this country apart.

Well, time to ride. Last time we talked, we were about to try and break out. Didn't work! Lost another sixty five hundred. I think we're done for! There's talk of surrender. Atlanta is lost!!

See you on the bridge!

P.S. Has anyone heard of whites rioting, burning and looting, shooting at police because a white was shot by a black cop? Just curious!

P.S.P.S. The peaceful religion of Islam, with the help of ISIS, has welcomed into their loving bosoms new members, then promptly shooting some and beheading the rest.

Welcome to Islam! By the way, this time, they killed Kenyans! Do you think Obama is even slightly interested? After all,

they were of his father's own kind.
