## GOVERNMENT ANTAGONIST AND HUGUENOT

Gee! A few of our honored statesmen in congress are afraid that they might be accused of treason. I wonder why? Do you suppose that they knew that helping the tyrant usurper subvert our Constitution and country was and is a treasonable offence of which they could, if tried and convicted, be executed? Considering treason is exactly what Obamacare is all about and nothing else!

I have looked into a couple of groups talking about a Constitutional Continental Congress. Problem is they are all talk and no do! The old Reb even tried to contact a couple of them, with no response... like some kind of private little clubs. Our country is being destroyed in front of our very eyes and these people are so about themselves they are afraid to share the glory.

Boys and girls, this is serious business! You know, I've been asked, "Well, how do you go about it?" That coming from people I thought were serious enough to figure it out. After all, it's not rocket science. You hold meetings of those interested enough to actually put their heads on the chopping block. Form a delegation to form an interim government, Write a document of no confidence and to cease and desist operations to the now illegal executives. To contact the embassies of the other countries we do business with to inform them to stop doing business with these soon to be deposed traitors and send representatives to the new government. Appoint new officers to our court system. Appoint military commanders, call for volunteers to form a legal militia and put our military house back in order. Appoint marshals to arrest our illustrious, but corrupt legislators to be held for trial. You see, it's not rocket science.

**Can Our Oklahoma Attorney General's Lawsuit Destroy Obamacare? According to A.G. Scott Pruitt's contention, the Affordable Care Act requires that fines/penalties related to Obamacare only apply to those who are eligible to receive tax credits and subsidies. According to the law, if a state does not set up its own healthcare exchange, then that state's citizens are not eligible and thus cannot be fined or penalized when it comes to health insurance choices. This is an important issue and one that several dozen states have joined together on in fighting Obamacare.**

Our founding fathers did this without any help. They just did what needed to be done.

We just need to chose a place and a time. The longer we wait, and make excuses for why we can't, the quicker Obama will finish the job. Let me see... the I.R.S. scandal, Benghazi, and more. I think, my fellow Americans, there are more talkers than doers! I, a doer, know people that say they want to see our Constitution restored and functioning

as it is written and then, Hoo-Ha, then run. "Oh, I think my wife or maybe my mother is calling! I'll get back to you later, Reb. Gotta run... See you later!"

I'm sorry, but there wont be a later! It's now or socialism with the Obama's forever. I said it before and I'll say it again: choose! But choose wisely. The stew is almost done and I don't think you will be able to eat it!

Time to ride. This old Reb is busy fighting for his country. Invaded by a usurper and laid waist by his illegal actions! Put a wounded mule down yesterday. He's dinner today for 195! Most of whom will never see home again!

I wonder if the Yankees will keep their slaves?

See you on the bridge!

P.S. How do you like Obamacare so far? Guess what... it was never intended to work. It's there to destroy only... which it is doing perfectly! So, boys, if your going to hide and shake in your boots, I guess this old Reb will just have to take up the slack for the woosies. Damn the torpedoes, full speed ahead!

P.S.P.S. Interesting! Lincoln, Obama, Al Capone... all called Illinois home! All committed outrageous crimes on the American people! Obama thinks he is Lincoln reborn!
